THE BENEFICIAL RESULTS OF THE DEMOCRATIC TARIFF POLICY.

The improvement in business has shown no sign of abatement. Industrial activity has increased, and further advances in wages have been noted in the iron and steel and textile manufacturing trades. This steady and general tendency to a restoration of the wages paid in previous seasons of prosperity attests the substantial recovery of the industries from the depressed conditions that prevailed prior to last spring. It has greatly relieved the labor discontent that was so apparent a few months ago, and there is now a notable absence of important strikes or of threatened disturbances of this character. The growth of business activity is evidenced by a gain of over 35 per cent. in the week's bank exchanges and by increasing railroad earnings. The latter have made substantial gains in spite of considerable rate cutting on east and west-bound tonnage; and the trunk line agreement to maintain rates, which has been an important development of the week, is significant of more satisfactory earnings in the near future. The crop news is, as usual, conflicting, but, on the whole, much more encouraging; and the fact that it is so regarded has been demonstrated by a further fall in prices of grain and cotton.

The practical completion of the bond syndicate's work of restoring the Treasury gold reserve has awakened no apprehension of immediate gold exports; and the approach of the crop moving period, when merchandise exports may be expected to increase largely, inspires confidence in continued immunity from Treasury depletion on this account. The weekly return of failures in the United States and Canada again shows a comparative increase in number, being 278 as against 249 a year ago, but R. G. Dun & Co.'s half yearly report next week will show only about 6000, against 7039 for the first half of last year, with liabilities of \$88,000,000, against \$101,578,156 in the first six months of 1894. The commercial agency's report states that but for the Cordage concern's failure the aggregate would be nearly 23 per cent. less than last year, and the manufacturing liabilities alone, 26 per cent. less. Including it, however, the manufacturing liabilities will aggregate \$40,000,000 against \$41,376,102 in 1894, and the trading \$45,000,000 against \$52,345,978 last year, while the miscellaneous liabilities will amount to only \$2,700,000 against \$7,856,072 in six months of 1894.

In August, 1894, the Wilson tariff bill, reducing the tariff duties, became a law. Immediately factories opened. Idle men were set at work, wages increased, mills were crowded to the utmost capacity to supply orders. In the schedules including iron and woolen goods the reductions were greatest. In iron the average reduction was 37 per cent. and in woolens 50 per cent. Yet in iron and woolen factories is the greatest increase in activity noted and in these two branches are the advances in wages most general. The lesson is very plain. It does not require a Solomon or a Newton to discover it. It is simply this: High tariff leads to low wages; low tariff is accompanied by high wages. The proof is overwhelming.—*Union Observer.*

According to a Republican contemporary the number of tin plate plants has increased from thirty-two to fifty-four or nearly 100 per cent. It was not to be expected that the tin plate industry would make much progress while the McKinley law was in operation. That economic mon-

strously put a prohibitive duty on tin plate but a moderate levy on the tin and the plate. The result was that a number of firms established the business of importing tin and the plate and had the dipping done here. That was a profitable but fraudulent business which gave satisfaction to no one except those engaged in it.—*Kansas City Times.*

Trust and Distrust.

"Young man," said the fond father, "in giving you my daughter, I have entrusted you with the dearest treasure of my life." The young man was duly impressed. Then he looked at his watch. "Really," he remarked, "I had no idea it was so late. The cars have stopped. Could I borrow your wheel to get down town?" "Young man, I would not trust anybody on earth with that wheel."—*Indianapolis Journal.*

In the vicinity of Boquet, Westmoreland Co., Pa., almost any one can tell you how to cure a lame back or stiff neck. They dampen a piece of flannel with Chamberlain's Pain Balm and bind it on the affected parts and in one or two days the trouble has disappeared. This same treatment will promptly cure a pain in the side or chest. Mr. E. M. Frye, a prominent merchant of Boquet, speaks very highly of Pain Balm, and his recommendations have had much to do with making it popular there. For sale by Melville Bros., next to P. O.; C. W. Heister, 58 Public Square.

Fixing Up the Piazza.

A bow-shaped piazza can be made a very pleasant summer room with very little trouble. A few awnings that work in the fashion of Venetian blinds, some low-cushioned seats, where the youngsters can rest comfortably, wicker rockers, a testable, with all conveniences for summer beverages, a plant or two and you have as charming a lounging place as one could wish.

CASTORIA

for Infants and Children.

"Castoria is well adapted to children that I recommend it as superior to any preparation known to me." H. A. ANKER, M. D., 211 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few families who do not keep Castoria within easy reach."

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it is invariably produced beneficial results."

EDWIN F. PAXSON, M. D., 18th Street and 7th Ave., New York City.

Without injurious medication.

That Tired Feeling

Is a common complaint and it is a dangerous symptom. It means that the system is debilitated because of impure blood, and in this condition it is especially liable to attacks of disease. Hood's Sarsaparilla is the remedy for this condition, and also for that weakness which prevails at the change of season, climate or life.

Hood's Pills act easily, yet promptly and efficiently on the bowels and liver. 25c.

GREAT COAL MINE.

Voia Said to Be Seventy-Five Feet Thick Found in Missouri.

Massena, O., July 1.—A party of Massillon coal drillers have returned from Massena, Mo., bringing tales of a coal vein 75 feet thick. This remarkable deposit lies 30 feet below the surface and will be blasted and quarried like Ohio building stone. These drillers expect to return and complete their work. At the first bluish it may seem ridiculous to speak of coal 75 feet thick but it turns out that the report is correct and that a company of Pittsburg and Ohio capitalists has been organized to develop the territory. F. P. Powell, one of the heaviest Massillon operators recently went to the scene and satisfied himself that an opportunity for profitable investment existed. It was known years ago that this wonderful coal vein awaited the mine's pick, but owing to the great expense necessary to get into the market every corporation that has gone into the enterprise has failed. This latest company has unlimited capital and will build a railroad through the mountains, after which the rest will be comparatively simple.

TELEGRAPH AND TELEPHONE WAR

The Bell and Western Union Companies Are on the Out.

New York, July 1.—A monster telegram and telephone war is in sight. The Western Union Telegraph company and the American Bell Telephone company have a contract at present which requires each company to operate only in its own peculiar sphere, but it will be broken.

In the past three years a great many firms having branches in different cities have dropped their leased wires and begun using long distance telephones. In some instances by which telegraphically connected cities are being cut out of the field against the Bell company. The struggle promises to be a bitter one.

MRS. STANFORD WINS.

Her Demurrer Against the Government

SAN FRANCISCO, July 1.—The United States Circuit Judge Ross rendered his

verdict in the case of Mrs. Jane L. Stanford against the suit of the government to recover \$15,000 from the estate of her late husband, Leland Stanford.

Judge Ross allowed the government to amend its former complaint and reargue its case if it so desired. It was anticipated, however, that this step would not affect the case, the law, as construed by Judge Ross, favoring the case of the United States. The sustaining of the demurrer was a surprise, the attorneys generally expecting a contrary decision.

Ex-Catholic Monk Attacked.

WINSTON, July 1.—Father Leyden, an ex-Catholic monk of Boston, narrowly escaped mobbing when he lectured at Fort William and Rye Portage, Ont. He was stoned and the latter place defended himself from the mob with a chair. The authorities gave him safe conduct out of the town.

Last summer one of our grand

children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Westfield, Mass. This remedy is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. DIDN'T KNOW HIM.

Policeman Thompson is Not Recognized as an Officer and Gets a Thumping.

About 10 o'clock Saturday night a young man named Gus Marks, while at the merry-go-round on south Main street, took a pair of gloves from Mabel Storr. Mabel complained to her brother who, with Policeman Thompson, followed Marks and requested him to hand over the gloves. Marks struck Storr with his fist and when Thompson interfered a young fellow named Fred Schrider joined in the fray and knocked the policeman down. There was a general mix for a few seconds and when the dust settled, Thompson was all alone. He had struck his face on a stake in falling and was considerably bruised. Schrider was arrested by Lieutenant Wingate and given custody for his appearance before the mayor to-morrow. Schrider says he did not know that Thompson was an officer, and interfered to help Marks. The latter will probably be arrested also.

SAME HOUSE.

This Time it is Badly Damaged by Fire.

About 4 o'clock Saturday evening the central fire department was again called to Wayne and Metcalf streets by an alarm from box 74. The dwelling house owned by Henry Moore, which had been on fire seven times previously within less than a month had again become ignited in the roof from some unknown cause, and this time the flames had gained such headway that the building was almost burned down before they were extinguished. Most of the household goods belonging to the family that occupied the house were destroyed. The eight fires that occurred at this house during the past four weeks originated in the roof of the building and several of them started when there was no fire whatever in the house. Three times the roof caught fire while men were at work removing the shingles, and the origin of them was always a mystery.

THE POLICEMEN

Assigned to Their Respective Beats for July.

Chief Haller assigned the patrolmen to their respective beats for this month, last night, as follows:
Day force—Roney, north of Wayne; Watts, Wayne to river; Furry, South Side. Night force—Tinkler, Croft and Croft, north of Wayne; Vena, Wayne to High, east of Main; Baker, High to river, east of Main; Lehman, Wayne to river, west of Main; Marks and Blair, South Side.

There is a storm central this morning over the north Atlantic coast which is causing heavy rains over that section. A storm is central over the extreme northwest, moving east. The remainder of the country is under the influence of an area of high barometer.

Death of George Wolf.

George Wolf, the well known painter, died at his home in the Swiss hotel about 1 o'clock Saturday evening from kidney trouble. The deceased came here from Greenville several years ago and gained considerable distinction as an artist. At the time he was taken sick he was employed at the government building.

The remains were taken Sunday to Greenville, where his mother and sister reside and where interment will take place.

False Alarm.

About 12:30 o'clock last night, while merchant's policeman Phil Goebel was patrolling his beat on west Market street, he noticed flames shooting upward from what he supposed to be a building of some kind on Elm street. He sent in alarm from box 63 and when the department arrived it was found that the flames were from a couple of torches that drillers were using at a new well which is being drilled on the Faurot farm.

STREET TALK.

At the Commercial Club in Indianapolis, last Friday evening, W. E. Hackborn, of the L. E. & W. gave an elaborate dinner in honor of his sister, Mrs. Geo. Hall, of this city, who is the guest of Mr. and Mrs. Hackborn.

The Lima Electric Street Railway yesterday conducted up their wires with the dynamo at their power house at Main and Water streets and are now using their own power. The line was shut down yesterday until about 5 o'clock when cars began running.

The month of June, which ended last midnight, was a record breaker for fires in Lima, there being twenty-two runs made by the department, besides the response made to the call from St. Marys. Seven of the alarms last month were from box 74, at Wayne and Metcalf streets, and were sent in on account of the fires which started in the roof of Henry Moore's house.

The greatest number of fires heretofore in one month were fifteen, which occurred a year ago this month.

Sim Stewart and son Ira and Harry Carter, on their bicycles today for Canton, where they will at the Ohio State L. A. W. bicycle meet, which begins to-day and ends Thursday.

Ticket agent H. I. McGuire has leased one of the Wm. Bell residences on north McDowell street and removed his family into it today.

J. B. Wilson, once a prominent man of Lima, but of late years retired from business, was in the city last night, and with his two daughters left via the Clover Leaf for San Antonio, where his son is employed as a property man by the circus managers. Fitzgerald claims that while in the tent yesterday morning Myers kicked him and ordered him away and that when he refused to go he hit him on the head with his fist. Fitzgerald also showed some marks on his neck which he claims Myers made by choking him last night.

When arraigned before Squire Atmear this afternoon Myers pleaded not guilty and the case was set for a hearing at 7 o'clock this evening.

THE ELKS' SHOW.

The Greatest and Most Gigantic Circus of Them All.

The greatest patriotic day in America is the Fourth of July and the Greatest Show on Earth is the Elks' Circus. This is the reason the show is being given by Lima Lodge No. 162, B. P. O. E. The tent has been up for a week and the rehearsals have taken place there until everything is now in perfect running order.

The animals have begun to arrive in the vicinity of Lima and are being secreted in different places about the city. The herd of trained elephants, lions, etc., came in over the Lima Northern last night from the Paulding county wilds, where they were wintered. They are all in first class shape and will be put through their work at the tent to-night, in order to accustom them to the surroundings. They are not at all tame, and the little children living in the vicinity of the show grounds should be kept in doors for a night or two in order to avoid any mysterious disappearances from that part of the city. There will be no danger after Wednesday night as their keepers will have them well in hand at that time.

OIL AND GAS.

SPENCERVILLE NEWS.

Taft Bros. & Co. have put to pumping their well on the William Easterly farm, a few miles southwest of Kossuth. It is a very light well. The well on the Wm. Van Swearingen farm, near Monticello, at 30 feet in the sand had no showing of oil. The well will be pushed down at least 70 feet further.

Holtzapfel No. 2, two miles southeast of Kossuth, drilled by Bettman, Watson & Bernheimer, was as dry as a powder horn at 60 feet in the sand, but a 240 quart shot made it a fair producer, Monday.

The well on the Will Post farm, four miles northwest of town, drilled in last Saturday and was shot with 140 quarts. It made 26 inches the first 24 hours. The well was struck at 1192 feet and the drill sent 100 feet deeper. Oil was found at 10 and 25 feet.

The Byers well, drilled by Wolf & Co., in Blackrock township, two miles south of Willshire, was completed Monday. C. C. Shepp, who was there when the well was completed, says that it is flooded with salt water. It was shot Tuesday, showing plenty of gas and considerable oil. —Spencerville Journal.

AMONG THE RAILROADS.

Engineers Elch and Bogart and Fireman Flinche, of the C. H. & D., are laying off.

The receivers of the Erie have issued an order for the resumption of work at the shops in Hornellville and some other points on full time. This order affects about seven hundred men who have been on reduced time for over two years.

The next number of the Railroad Age will contain statistics showing that the total miles of railway track laid in the United States from January 1 to July 1, 1895, were 641 miles on 65 lines, against 623 miles on 51 lines for the same period of 1894. In 17 of these 23 construction work is in progress or about to commence on one or more lines, but in six of the states—Connecticut, Delaware, Nevada, Nebraska, New Hampshire and Rhode Island—not a mile of new line now appears likely to be built this year. The total new track for 1895 is estimated at 2,500 miles.

TO PROTECT TRAINMEN.

The C. & E. Has Issued Strict Orders in Accordance with the Act of Congress.

In pursuance of the provisions of sections 4 and 5 of an act of Congress approved March 2nd, 1893, the C. & E. R. R. company has issued notices to all connecting lines and corporations owning rolling stock to be equipped over that road, that on and after the first day of July, 1895, it will not receive any freight cars for use in inter-state traffic which are not provided with secure grab-bars and hand-holds in the ends and sides of each car for greater security.

In pursuance of the enforcement of this order train master Klein, with a gang of car inspectors, passed through here on a special train this morning, inspecting all cars on the company's tracks.

PLEADED NOT GUILTY.

And will Have a Hearing This Evening.

This afternoon constable Mumaugh arrested Edward Myers, head carman at the Elks circus grounds, upon a charge of assault with intent to kill. The charge was preferred by Ed Fitzgerald, a young man who was discharged by Myers a few days ago and who was afterwards employed as a property man by the circus managers. Fitzgerald claims that while in the tent yesterday morning Myers kicked him and ordered him away and that when he refused to go he hit him on the head with his fist. Fitzgerald also showed some marks on his neck which he claims Myers made by choking him last night.

When arraigned before Squire Atmear this afternoon Myers pleaded not guilty and the case was set for a hearing at 7 o'clock this evening.

YOUNG THIEVES

Caught in the Act of Looting a Barber Shop.

About 3 o'clock yesterday afternoon two young boys aged about twelve years were seen entering James Harris' barber shop, under Hall's grocery, on south Main street. The police were notified and policeman Roney was detailed to investigate the case. The boys had a bunch of keys and had unlocked the door of the shop and upon getting inside, gathered up several combs and razors. When they saw Roney coming they threw part of the stuff back into the shop and ran. Roney followed and had the satisfaction of seeing the two boys run into the arms of Policeman Baker, who captured them. After they were taken up in the women's department of the police station they gave their names as Allie Linson and Perry Thomas and confessed to being the boys who robbed Williamson's grocery on south Pine street several weeks ago.

DAY OF THE DEAD IN PARIS.

Curious Scenes During the Pilgrimage to the Graveyards.

Paris, it is said, thinks once a year of those whom she has lost. The truth is she thinks very much of them, for their touching devotion to the memory of the dead is one of the finest sides of the French character.

The day after All Saints' is the 'day of the dead'—the jour des morts.

Then Parisians visit the great cemeteries—Pere Lachaise, Montmartre, Montparnasse, Passy, Vincennes and Saint-Ouen. It is a curious sight to see the crowds sweeping like a torrent along the boulevards of Bellevue and Montmartre between the two rows of booths piled up with emblems of grief and pity.

About half the number are simple sightseers—lads, who are attracted by any crowd, and who can be readily recognized by their ill-dressed and gaping air and empty hands.

The others, in mourning habits, carry in their hands wreaths of everlasting flowers, sprigs of boxwood and yew, bouquets, medallions and glass with a weeping willow and some artless inscription a ma mere, a notre pere, etc.

The cemeteries themselves present an unaccustomed spectacle. The entrances are guarded by mounted guards de Paris in full uniform; policemen are stationed to regulate the circulation in the interior, and around the cemetery hawkers of all sorts spread out their wares in tempting array—immortelles for the dead, cakes and petit bleu—cheap wine—for the living.

The exterior boulevards are too small for the crowd of mourners, and the inns and workshops too small for the custom.

Side by side with the sellers of souvenirs, you find the camel, who offers his collection of 300 jokes for 1 cent; the open air lotteries with their grating and rattling wheels and an asthmatic hurdy hurdy playing the eternal "Boulanger March." This is the first act of the tragedy.

Each proceeds to the tomb that interests him or her. The old wreaths are removed, and the glass covered medallion of the most approved design is hung up in their stead.—St. Louis Globe-Democrat.
